14.103	Interest Reduction Payments_Rental and Cooperative Housing for Lower Income Families	Department of Housing and Urban Development	(\$104,611,015)

Notes:

This table was generated by an Access database of federal domestic assistance programs that used Census 2000 and related datasets in Fiscal Year 2008 to determine:

- the eligibility of the applicant, the recipient, or the beneficiary to receive the assistance
- the formula by which **all or some** program funds were allocated geographically and/or
- recipient selection preferences

Datasets related to Census 2000 include:

- the Census Bureau's annual Population Estimates, American Community Survey, Current Population Survey, Small Area Income and Poverty Estimates, and list of Urbanized Areas
- per capita income (Bureau of Economic Analysis), Area Median Income and Fair Market Rents (HUD), Local Area Unemployment Statistics (Bureau of Labor Statistics), and statistical area delineations (OMB)

Caution: For each program listed in the table, the dollar amount is the **total** expenditure as provided by the Consolidated Federal Funds Report (CFFR). Data are not available that indicate the portion of each program's state total allocated on the basis of decennial census data. Hence, figures from the table should be cited with care and clarity. (Preliminary analysis does indicate that, nationally, 90 percent or more of funds from programs that make use of census-related data were distributed on the basis of those data.)

Programs that rely on census-related data were identified through a review of the Catalog of Federal Domestic Assistance (<http://www.cfda.gov>), federal law and regulation, and, as necessary, communication with program personnel. The allocation of funds by geography was drawn from the CFFR database (<http://www.census.gov/govs/www/cffr.html>), maintained by the Census Bureau. FY2008 is the latest year for which CFFR data are available.

At times, program funds are deobligated from a given geography if, for example, actual program costs were less than were anticipated. If a program had a net deobligation in FY2008, expenditures for that program appear as negative. Negative numbers appear in parentheses.

A per capita expenditure estimate is provided to allow comparisons among states. The table's per capita figure is determined by dividing the sum of total program allocations by the Census Bureau's 2008 population estimate for the geographic area. The per capita estimate is not intended to suggest that each additional person identified in the census will add the per capita figure to federal flows to the state.

The findings in the table are preliminary and subject to revision.
